CONSUMERS DAY AND EVENING DANCE

As the Consumer Movement around Australia and New Zealand gains momentum, this day will provide an opportunity for consumers to reflect on the movement's origins and future directions. It is a chance to workshop the issues and hopes that consumers want to take forward into the new millenium. This day celebrates our diversity and strengths, providing exceptional opportunities to network with other consumers from around the two nations.

The morning workshop is entitled "*A Vision for the Future*" and will feature speakers including *Trish Goddard*, and *Simon Champ*.

The afternoon workshop is entitled "*How to Achieve the Vision*".
